

RUTABA SHAMSHAD

Frontend Developer

Karachi, Pakistan | 0312-1128687 | rutabash67@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Frontend Developer with 1+ year of professional experience building and deploying scalable, responsive web applications using React.js. Proven track record of converting Figma designs into pixel-perfect UIs, integrating RESTful APIs, and implementing state management with Redux Toolkit. Currently contributing to production-level applications at Fedi Tech, with prior experience at Webnet Pakistan and Shispare. Holds a Bachelor of Software Engineering (GPA: 3.57) from Virtual University of Pakistan.

PROFESSIONAL EXPERIENCE

Frontend Developer | Fedi Tech

May 2025 – Present • Hybrid

- Built and deployed two complete, production-ready web applications using React.js with reusable component architecture, ensuring cross-platform compatibility and responsive design.
- Implemented state management, API integration, and dynamic UI logic using React Hooks, Redux Toolkit, Axios, and React Router, improving scalability and maintainability.
- Converted Figma design mockups into pixel-perfect, accessible user interfaces using Tailwind CSS and Bootstrap, adhering to clean code and component-driven architecture principles.

Frontend Developer | Webnet Pakistan Pvt Ltd

Dec 2024 – May 2025 • On-site

- Collaborated with UI/UX designers to translate wireframes and prototypes into visually appealing, intuitive interfaces with a focus on user experience.
- Developed fully responsive layouts compatible across multiple browsers and device sizes, reducing layout inconsistencies.
- Integrated third-party and internal RESTful APIs to enable seamless data communication between frontend and backend systems.
- Troubleshooted and resolved UI bugs while delivering new feature implementations to enhance application functionality.

React JS Apprentice | Shispare Pvt Ltd

Apr 2024 – Nov 2024 • On-site

- Contributed to live production projects, implementing frontend features using React.js under the guidance of senior developers.
- Assisted in integrating RESTful APIs and managing frontend data flow to support dynamic content rendering.
- Developed and maintained responsive web applications, ensuring cross-browser compatibility and performance optimization.

EDUCATION

Bachelor of Software Engineering

Virtual University of Pakistan

GPA: 3.57 / 4.0 • CISCO: Introduction to Networking

2021 – 2025

Karachi, Pakistan

TECHNICAL SKILLS

Languages HTML5, CSS3, JavaScript (ES6+), SCSS

Frameworks React.js, Bootstrap, Tailwind CSS

Libraries

Redux Toolkit, Axios, React Router

Tools

Git, GitHub, REST APIs, MongoDB, Responsive Web Design, Figma

Soft Skills

Team Collaboration, Active Listening, Communication, Punctuality, Problem-Solving
